

Love and Logic

Love and Logic is a philosophy of raising and teaching children which allows adults to be happy, empowered, and be skilled in interactions with children. Love allows children to grow through their mistakes. Logic allows children to live with the consequences of their choices. Love and Logic is a way of working with children that puts parents and teachers back in control, teaches children to be responsible, and prepares young people to live in the real world with its many choices and consequences.

Services available through SCOE: At this time we are not planning to provide any Love and Logic Training. We do, however, have many of the Love and Logic materials in our AV Library available to schools that have contracts. For more information, contact Anne Hinchcliff at 842-8430 or ahinchcliff@siskiyoucoe.net
